July is Ultraviolet (UV) Safety Month
As we enjoy the beautiful summertime weather, we need to keep in mind several issues about the effects of the sun’s ultraviolet radiation. We need sunshine, it helps with our body’s production of Vitamin D. However, overexposure to the sun can lead to a variety of health risks. Two main types of UV light, UVA and UVB. UVB is what gives you your sunburn and is responsible for some types of skin cancers.
Below are additional resources related to UV safety:
- American Academy of Dermatology (AAD)
- Weill Cornell Medicine
- American Cancer Society
- US Food & Drug – Facts about Sunscreen

1st Aid, Adult CPR & AED Training
Registration form
7/27/2023 1:00-3:30pm
With 88% of cardiac arrests happening at home, it is wise to be trained in Cardiopulmonary resuscitation (CPR) to help loved ones immediately. Many people who suffer from cardiac events appeared healthy at the time and did not have any known heart risk factors.
