

Safety Starts with you

Preparing for a
DISASTER
is as easy as
PREPARING
for game day

National Preparedness Month

is an observance each September sponsored by [Ready.gov](https://www.ready.gov) to raise awareness about the importance of preparing for disasters and emergencies that could happen at any time.

The 2023 theme is “**Take Control in 1, 2, 3**”. The campaign focuses on preparing older adults for disasters, specifically older adults from communities that are disproportionately impacted by the all-hazard events, which continue to threaten the nation. Older adults can face greater risks when it comes to the multitude of extreme weather events and emergencies we now face, especially if they are living alone, are low-income, have a disability, or live in rural areas.
