

# College of Engineering Safety Standard

Information provided by Thomas Kohn, CoE Director for Safety

College of Engineering  
UNIVERSITY OF WISCONSIN-MADISON

## Safety Starts with you

### Winter Weather Safety

During the winter months, it is important to make sure you are prepared for the elements whether going about daily activities or enjoying winter outdoor activities.

The [National Safety Council](#) tips for staying safe during winter months include:

- Avoid injuries while enjoying winter weather
  - [Skiing / snowboarding](#)
  - [Sledding](#)
- [Avoid shoveling, snow blowing injuries](#)
- [Driving safely in the snow](#)
- [Prevent carbon monoxide poisoning](#)
- [Treat frostbite immediately](#)
- [Ladder safety for holiday decorating](#)
- [Snow & ice removal safety](#)

Scan this QR Code for these and additional safety links

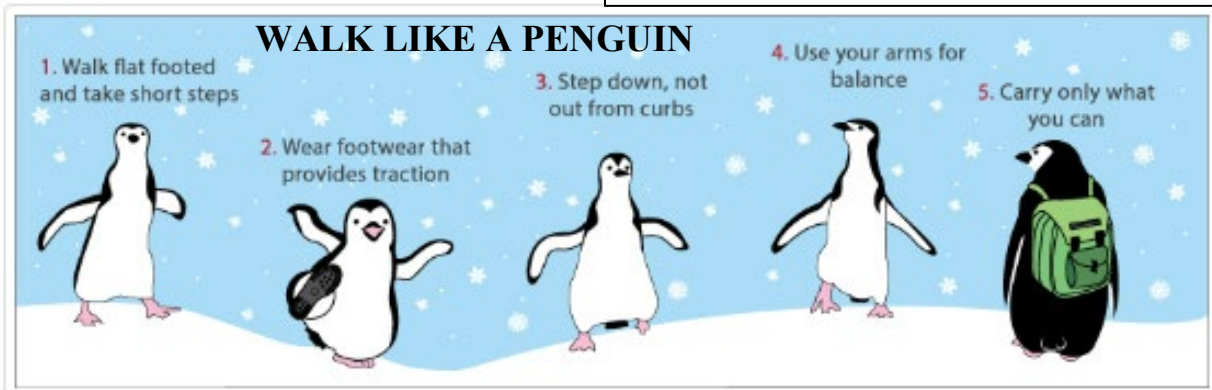

**A near miss reported today is an accident that does not happen tomorrow**

When incidents or near misses occur, it is incumbent that we learn from them to create a safe environment and better processes.

[COE Safety Report Form](#)

If a College of Engineering (CoE) employee is injured, which may require treatment beyond first aid, please click the following link and complete the [CoE Workers Compensation Process](#)
